## **DETAILED ACTION**

## Election/Restriction

- 1. After further consideration, in view of Applicants' amendment filed May 5, 2005, the election to one of the following is deemed necessary for the best examination of the instant case.
- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11 are drawn to a method for enabling access to remote client/server, classified in class 709/219.
  - II. Claims 12-25 are drawn to a method for accessing peripheral devices, classified in class 710/36.
- Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP 806.05(c)). In the instant case, the combination as claimed does not require the particular of the subcombination as claimed because the method for enabling access to resources connected to client nodes of a network can be facilitated without the specifics of selecting SCSI host adaptors. The subcombination has separate utility such as using a SCSI host adapters to support various protocol I/O devices.

Application/Control Number: 09/656,533 Page 3

Art Unit: 2143

4. Because these inventions are distinct for the reasons given above and have acquired a

separate status in the art as shown by their different classification, restriction for examination

purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Jeffrey C. Pwu whose telephone number is 571-272-6798.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, David Wiley can be reached on 571-272-3923. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
